

Looking for a
college experience
where you're free
to be yourself?

[Tell Me More](#)

At Hanover, we encourage you to express your individuality and grow into the person you were always meant to become!

But that's just scratching the surface.

Hanover also helps you prepare for life after college! In fact, **99% of our students are employed or in grad school within 7 months after graduation.**

And a quality education doesn't have to cost you an "arm and a leg" either.

You pay the same tuition rate all four years with our Tuition Lock program.

Pell-eligible students have their full tuition covered!

100% of Hanover College students receive financial aid.
That's right, 100%!

I want a valuable college experience that's also affordable!
